INTRODUCTORY SECTION

City of La Puente

15900 E. Main Street, La Puente, CA 91744-4719 Telephone (626) 855-1500 www.lapuente.org

December 4, 2019

Honorable Mayor and City Council
City of La Puente, California

INTRODUCTION

The City of La Puente's Comprehensive Annual Financial Report ("CAFR") for the fiscal year ended June 30, 2019 is transmitted herewith in compliance with State law and the relevant requirements of Governmental Accounting, Auditing and Financial Reporting published by the Governmental Finance Officers Association ("GFOA") of the United States and Canada. The information contained in this report offers a comprehensive scope of information which can be utilized by a large segment of the community, and is presented in a manner which will enable each reader to better understand all of the City's financial activities. Responsibility for both the accuracy of the data, and the completeness and fairness of the presentation, including all disclosures, rests with the Finance Department.

The financial statements are the responsibility of the City of La Puente's management. Consequently, management assumes full responsibility for the completeness and reliability of the information presented in this report. To provide a reasonable basis for making these representations, management of the City of La Puente has established a comprehensive internal control framework that is designed both to protect the government assets from loss, theft, or misuse, and to compile sufficient reliable information for the preparation of the financial statements in conformity with Generally Accepted Accounting Principles ("GAAP") and the pronouncements of the Governmental Accounting Standards Board ("GASB"). Because the cost of internal controls should not outweigh their benefits, the City's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements are free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The City's financial statements have been audited by the independent certified public accounting firm of Van Lant & Fankhanel, LLP, Certified Public Accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City for fiscal year ended June 30, 2019, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts

and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The auditors have issued an unmodified (“clean”) opinion on these financial statements. The auditors’ report is located at the front of the financial section of this report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management’s Discussion and Analysis (MD&A). In addition, the MD&A is intended to disclose any known significant events or decisions that affect the financial condition of the City. This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The City’s MD&A can be found immediately following the report of the independent auditors. The Statistical Section includes selected financial, demographic and other relevant information.

The financial statements present the financial condition of the City of La Puente (the primary government) and its component unit, La Puente Public Financing Authority. The financial reporting entity consists of: (1) the City, (2) organizations for which the City is financially accountable, and (3) organizations for which the nature and significance of their relationship with the City are such that exclusion would cause the City’s financial statements to be misleading or incomplete.

PROFILE OF THE CITY OF LA PUENTE

The City of La Puente (“City”) is located 20 miles east of downtown Los Angeles in the San Gabriel Valley. The community of La Puente is predominantly residential and home to over 40,000 residents. Commercial land usage is located primarily along major highways/arterials and industrial land usage is less than five percent (5%) of the City’s 3.5 square mile land area. Freeway access to the City is readily available from Interstate 10 and the 60 Freeway.

The City is a general law city, incorporated on August 1, 1956; however, the history of the community extends back much further. The City’s name “La Puente” means the bridge in old Spanish and refers to an early bridge built across the San Jose Creek by members of the Portola-Serra expedition in 1769, as they surveyed the region for Spain. A modernized version of the bridge can be seen in the City’s colorful seal. The community of La Puente began in 1841 when European settlers arrived by wagon train from New Mexico and obtained title to the large 48,000 acre Rancho La Puente. During the 1930’s, the area was famous for its fruit and walnut groves. The largest walnut packing plant in the world was located in the City.

The City operates under a council-manager form of government. Policy-making and legislative authority are vested in a governing council consisting of five council members one of which is elected by the council to a one year term as mayor and one as mayor pro-tem. The governing council is responsible, among other things, for passing ordinances, adopting the budget, appointing committees and hiring both the City Manager and a contract City Attorney. The City Manager is responsible for carrying out the policies and ordinances of the City Council, for overseeing the day-to-day operations and for appointing heads of departments.

The City is a contract city and as such contracts for many of its services. This includes law enforcement services, building and safety services, engineering, road maintenance and landscape maintenance. Law enforcement services are provided by the Los Angeles County Sheriff's Department.

The Los Angeles County Fire District provides fire protection. The County also provides library services through a Library District, as well as sewer and sanitation services through a Sanitation District and pediatrics, women's and family planning services through a health center in the City. Funds for district services are collected through property tax bills and are disbursed directly by the Los Angeles County Tax Collector's Office.

Water services for the City are provided by La Puente Valley County Water District, San Gabriel Valley Water Company and Suburban Water Systems. Refuse collection is provided by a private waste collection company. There are also seventeen public and private schools serving the City's residents. Public schools are operated by the Hacienda La Puente Unified School District.

The City provides a number of in-house programs and functions including: City Clerk's Office, Development Services, Administrative Services, Recreation Services, and Public Safety (Code Enforcement). The City also operates various facilities to serve the community. These include a Community Center, Youth Learning Activity Center, Senior Center, La Puente Park and Puente Creek Nature and Education Center.

BUDGETARY CONTROLS

The annual budget serves as the foundation for the City's financial planning and control. Each year, a proposed budget is submitted to the City Council and several public meetings are conducted to obtain taxpayer comments. The budget is subsequently adopted by the Council through the passage of a resolution. All annual appropriations lapse at fiscal year-end. Certain multi-year project appropriations are re-budgeted by the City Council as part of the adoption process of the subsequent year's budget. The level of budgetary control is maintained at the fund level.

LOCAL ECONOMY AND ECONOMIC OUTLOOK

The San Gabriel Valley has stayed the course with a solid economic performance in 2019. Virtually every industry added jobs to the employment base and, according to data compiled by the Employment Development Department employment increased an estimated 1.0% to 697,068 payroll jobs. Total employment is currently at an all-time high, and is projected that the region will continue to add jobs through 2020, albeit at a slower pace as it approaches a full employment environment. The housing market has also improved, but obstacles remain. Median prices for existing homes continue to rise in response to limited supply and increased demand, but after seven years of price increases and anemic real wage growth, affordability continues to be an issue for many would-be home buyers. The San Gabriel Valley's housing market is undergoing the same overheating that the county as a whole is experiencing, and due to insufficient new construction, it is unlikely to abate in the near future. In the long run, more dense

construction is expected to take advantage of the demand and soaring prices, as well as a continued shift to multi-family units and more urban living.

The City, like other municipalities has continually been burdened by the financial pressures and impacts imposed by Federal, State, and County governments. Since the early 1980's, these governmental units have passed on to municipalities a myriad of unfunded mandates or service/regulatory requirements and also, have eliminated or redistributed significant sources of revenue. Despite this challenge the City has managed to maintain a balanced budget without any reductions in City services.

The City relies heavily on two major revenue sources – property taxes and sales and use taxes for its general fund operating expenses. These two revenue sources comprise 76% of the General Fund revenue. Other revenue sources such as transient occupancy tax, business license taxes, real property transfer taxes, and licenses and permits fees remain stable.

The City's sales tax base saw an increase of 29.6% compared to fiscal year 2017-2018. The City continues to look for ways to expand the sales tax base. In November 2018 voters passed a ½ cent sales tax measure that was placed on the ballot through citizen initiative. This measure is expected to generate approximately \$1.25 million per year in additional sales tax revenues for the City.

Despite the challenges of limited vacant commercial land and retail space selection, the City continues to promote new business opportunities through marketing and outreach efforts. The City also works closely with existing businesses to assist them with regulatory issues and to foster expansion projects..

Assessed property values within the City were up 4.9% over 2017-18 resulting in an increase in the property tax received. The average home price at June 30, 2019 was \$450,735 while the median price was \$465,000. The unemployment rate showed a slight decline from 4.2% to 4.8% and is expected to remain the same or improve slightly as employment opportunities increase.

MAJOR INITIATIVES AND ACCOMPLISHMENTS

In November 2018, Measure LP, the City of La Puente Public Safety, Vital Services and Neighborhood Protection Measure, passed with 74.51% of the vote. Measure LP imposes an additional one-half of one percent (0.5%) local transactions and use tax on each dollar of taxable sales of goods in the City and on the taxable storage, use or consumption of goods purchased from a retailer.

In February 2019, the City adopted a Park Master Plan for La Puente Park. In order to develop the plan, the City utilized various community outreach efforts in order to engage and solicit feedback from the community. These outreach efforts included three steering committee workshop, three community workshops, and an online survey. From these outreach efforts, the City put together the plan that includes a phasing and financial component that will assist the City in applying for grants to help fund the park improvements.

In June 2019, the historic Star Theater was razed to make way for a new 22 unit townhome development in the City's downtown business district. The demolition of the Star Theater brings an end to the iconic movie house that has been part of the City and the San Gabriel Valley since its construction in 1947. With the demolition of the theater structure the City saw an opportunity to partner with the Los Angeles Historic Theatre Foundation to preserve the symbolic star that has rested on top of the unique multi-pole support structure for over 70 years.

LONG-TERM FINANCIAL PLANNING

The unassigned fund balance in the General Fund is \$9.7 million or 77% of General Fund expenditures and total General Fund reserves are at \$21.2 million. The City adopted a balanced budget policy in Fiscal Year 2015-2016 which requires a General Fund reserve of 25% of budgeted expenditures, a \$1.0 million emergency reserve and a \$1.0 million economic uncertainty reserve. The current reserve amount falls within the management budget guidelines as approved by the City Council for budgetary and planning purposes.

GFOA CERTIFICATE OF ACHIEVEMENT

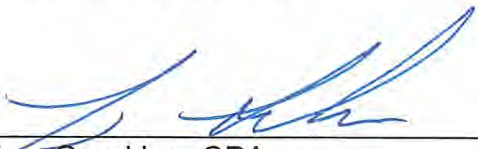

The GFOA awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its CAFR for the fiscal year ended June 30, 2018. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of State and local government financial reports. In order to receive the award, a government has to publish an easily readable and efficiently organized CAFR that satisfied both GAAP and applicable legal requirements. The awards are valid for a period of one year only. The City believes that the current CAFR continues to meet program requirements and the City will submit it to the GFOA to determine its eligibility for another award.

ACKNOWLEDGEMENTS

Special recognition is extended to the entire staff of Administrative Services for their ongoing dedication and efficient services provided to all City departments and citizens on a daily basis. Special appreciation is also extended specifically to Finance Division staff who contributed to and participated in the coordination and preparation of this CAFR. This document reflects the hard work, talent and commitment of City Staff and could not have been accomplished without the high level of professionalism and dedication that they bring to the City of La Puente. Further, thanks are also extended to Van Lant & Fankhanel, LLP, the City's independent auditors, who assisted and contributed in the preparation of this report.

Lastly, special acknowledgement is given to the Mayor and City Council for their continued support and interest in directing the efforts to maintain the City's strong fiscal health in a responsible and professional manner.

FINANCIAL SECTION

Independent Auditor's Report

The Honorable City Council
City of La Puente, California

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the City of La Puente (City), as of and for the year ended June 30, 2019, and the related notes to the financial statements which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the City of La Puente, as of June 30, 2019, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the budgetary comparison information, and other required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the City's basic financial statements. The introductory section, schedules listed in the supplementary information section of the table of contents, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The schedules listed in the supplementary information section of the table of contents are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedules listed in the supplementary information section of the table of contents are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued a report dated December 4, 2019, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

A handwritten signature in dark ink that reads "Van Lant & Fankhaenel, LLP". The signature is written in a cursive, flowing style.

December 4, 2019

MANAGEMENT'S DISCUSSION AND ANALYSIS

Our discussion and analysis of the City of La Puente's financial performance provides a narrative overview and analysis of the financial activities of the City of La Puente (City) for the fiscal year ended June 30, 2019. Our analysis includes information regarding the City's overall financial position and results of operations to assist users in evaluating the City's financial position, a discussion of significant changes that occurred in funds, and information regarding significant budget variances. In addition, it describes the activities during the year for capital assets and long-term debt. We end our discussion and analysis with a description of currently known facts, decisions, and conditions that are expected to have a significant effect on the financial position or results of operations. Readers are encouraged to consider the information presented here in conjunction with additional information furnished in the letter of transmittal, which can be found on page i of this report and the City's basic financial statements, which begin on page 18 of this report.

FINANCIAL HIGHLIGHTS

Government-wide

- The City's assets exceeded its liabilities at the close of the fiscal year by \$66,705,741. Of this, \$18,697,664 is in unrestricted funds that may be used to meet the City's ongoing obligations to citizens and creditors.
- The City's total net position increased by \$4,082,534 from the previous fiscal year.
- Citywide revenues were \$22,610,342. Total revenues are composed of \$13,921,099 in general revenue dollars, \$3,875,174 in charges for services, \$623,826 in operating grants and contributions, and \$4,190,243 in capital grants and contributions.
- Citywide expenses were \$18,527,808 with public safety being the largest functional area at \$7,863,802, or approximately 42% of the total expenses.

Fund level

- The total fund balance for all governmental funds was \$29,571,274 at the close of the fiscal year. Of that amount, \$11,480,704 is nonspendable and \$8,323,281 is restricted and not available for spending. The remaining \$9,767,289 is unassigned. Additional information on the fund balances for all governmental funds is on page 21 of this report.
- General Fund net change in fund balance increased by \$1,880,927 for the fiscal year ended June 30, 2019.
- Governmental fund balances increased by \$3,256,627 during fiscal year 2018-2019.

OVERVIEW OF THE BASIC FINANCIAL STATEMENTS

The Basic Financial Statements

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements are comprised of three components as follows:

Government-wide financial statements. The government-wide financial statements are comprised of the Statement of Net Position and Statement of Activities. These two statements are designed to provide readers with a broad overview of the City's finances utilizing the full accrual method of accounting, in a manner similar to a private-sector business. Under the full accrual method of accounting, transactions are reported as soon as the underlying events occur, regardless of the timing of related cash flows.

Statement of Net Position. This report presents information on all the City's assets and deferred outflows of resources and liabilities and deferred inflows of resources, including capital assets and long-term liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City as a whole is improving or deteriorating.

Statement of Activities. The information presented in this report shows how the City's net position changed during the most recent fiscal year. Functional activities are highlighted in this statement, whereby direct and indirect functional expenses are shown net of related program revenue. This statement shows the extent to which various functions depend on general taxes and non-program revenues for support.

Both of these government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (referred to as governmental activities), from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (referred to as business-type activities). The governmental activities of the City include general government, public safety, public works, recreation/senior services, and community development. Program revenues finance approximately 32% of these activities and general revenues finance the difference.

The Government-wide Financial Statements can be found on pages 18 to 20 of this report.

Fund financial statements. The fund financial statements focus on current available resources and report the City's operations in more detail for the City's most significant funds. Each fund is defined as a fiscal and accounting entity with a self-balancing set of accounts established for the purpose of carrying on specific activities or attaining certain objectives in accordance with authorities or legal mandates, restrictions or limitations. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. These statements focus on the near-term inflows and outflows of spendable resources, as well as on balances of spendable resources at the end of the fiscal year. Such information provides a short-term view of the City's general government operations and show whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. These funds are reported using the modified accrual method of accounting, which measures cash and all other financial assets that can readily be converted to cash. The relationship between governmental activities and the governmental funds are reported on the Reconciliation of the Balance Sheet of Governmental Funds to the Statement of Net Position page of the Government-wide Financial Statements.

Because the focus of governmental funds is more narrow than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the City's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains twenty individual governmental funds for financial reporting purposes. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund and Lighting and Landscape Maintenance District, which are considered to be major funds. Data from the remaining governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

The City adopts an annual appropriated budget for its general fund, special revenue funds and capital projects fund. A budgetary comparison statement has been provided for the General Fund to demonstrate compliance with this budget.

The governmental fund financial statements can be found on pages 21 to 24 of this report.

Proprietary fund. The City maintains two different types of proprietary funds. The enterprise fund is used to report the same functions presented as business-type activities in the government-wide financial statements. The City's enterprise fund accounts for sewer construction and maintenance operations. The City's internal service funds account for equipment and maintenance services for the computer systems as well as vehicles owned by the City.

Fiduciary funds. These funds are used to account for resources held for the benefit of parties outside the government. They are not reflected in the government-wide financial statements because the resources of these funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The fiduciary fund financial statements can be found on page 28 and 29 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in both the government-wide and fund financial statements.

The notes are on pages 30 to 56 of this report.

In addition to the basic financial statements and notes, this report contains other supplementary information.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Governmental Activities

This analysis focuses on the net position and changes in net position of the City's governmental activities which are presented in the government-wide financial statements.

Table 1

	2019	2018	Change	% Change
Current and Other Assets	\$ 36,936,356	\$ 33,271,782	\$ 3,664,574	11.01%
Capital Assets	34,736,076	35,067,108	(331,032)	-0.94%
Total Assets	71,672,432	68,338,890	3,333,542	4.88%
Deferred Outflows of Resources	1,985,526	2,237,908	(252,382)	-11.28%
Other Liabilities	2,687,455	2,583,353	104,102	4.03%
Long-term Liabilities	11,823,425	12,227,784	(404,359)	-3.31%
Total Liabilities	14,510,880	14,811,137	(300,257)	-2.03%
Deferred Inflows of Resources	354,538	297,982	56,556	18.98%
Net Position:				
Net investment in capital assets	33,313,131	33,484,552	(171,421)	-0.51%
Restricted	6,781,745	5,525,088	1,256,657	22.74%
Unrestricted	18,697,664	16,458,039	2,239,625	13.61%
Total Net Position	\$ 58,792,540	\$ 55,467,679	\$ 3,324,861	5.99%

Net position may serve over time as a useful indicator of the City's financial position. The City's governmental assets exceeded its liabilities by \$58,792,540 at the close of the fiscal year, an increase of \$3,324,861 or 5.99% from the previous year. The primary reasons for the increase in net position are as follows:

- Current and Other Assets increased by \$3,664,574 as a result of a delay in the construction of capital projects during the fiscal year, additional sales and use tax revenue received during the fiscal year, and an increase in the interest receivable amount related to long-term advances (see Note 3).
- Total Liabilities decreased by \$300,257 as a result of the City paying the current year portion of the City of Industry Loan Agreement and the net decrease in pension liability and OPEB liabilities. (see Note 6)

The largest portion of the City's net position is net investment in capital assets (land, construction in progress, buildings and improvements, equipment/furniture, and infrastructure) valued at \$33,313,131, or 57%, less any related debt outstanding used to acquire those assets. The City uses these capital assets to provide services to citizens. The capital assets are not available for future spending. Resources needed to repay the related debt outstanding must be provided from other sources because the capital assets cannot be used to liquidate these liabilities.

A portion of net position, \$6,781,745, or 11%, represents resources that are subject to external restrictions on how they may be used. The remaining balance of \$18,697,664, or 32%, is unrestricted. This amount includes \$11,085,558 which represents the advances for the loans between the former Redevelopment Agency and the City and is not in spendable form. The remaining amount is \$7,612,106 and may be used to meet the City's ongoing obligations to citizens and creditors.

Net position, ending	<u>\$58,792,540</u>	<u>\$55,467,679</u>	<u>\$3,324,861</u>	5.99%

The City's net position increased by \$3,324,861 during the fiscal year as a result of revenues being greater than expenses. The total cost of all City governmental activities was \$17,671,823 for the fiscal year. Net gain of all activities was \$3,324,861.

Total revenues increased by \$1,926,804 primarily due to the increase in property taxes, sales and use taxes, investment income, and other revenues as indicated above. Overall there was a decrease in expenses due to a reduction in public works projects. The full decrease was not realized because there was an increase in public safety and general government expenses.

Revenue Sources:

The revenue sources from governmental activities presented in Table 2 are illustrated in Figure 1 below to show the percentage relationship of these revenues to each other, as well as their impact on the City's total resources.

Figure 1
Revenues by Source – Governmental Activities

As shown in Figure 1, about 59% of the City's total governmental revenues are from taxes, which are primarily comprised of property, sales and use, transient occupancy, and franchise taxes. Program revenues totaled 34% of the total resources and investment income and miscellaneous income amounted to 7% of the total governmental revenues for the year.

Expense and Program Revenues:

The City's expenses in connection with its governmental activities are categorized by function, namely general government, public safety, public works, recreation/senior services, and community development. The program revenues associated with these governmental activities are classified into three categories which are charges for services, operating grants and contributions, and capital grants and contributions.

Governmental activities increased the City's net position by \$3,324,861. Key elements of this increase are as follows:

- Sales and Use Taxes increased by \$932,843. This increase was due to the implementation of the Measure LP sales tax that went into effect on April 1, 2019 as well as an overall increase in sales and use tax received during the year.
- Investment Income increased by \$697,129. This increase was due to a better overall performance of the City's investment as well as the favorable market value adjustment as of June 30, 2019.
- Other Revenues increased by \$265,101. This increase was due to the City receiving development impact fee totaling \$100,000 as well as the rebate check from Southern California Edison for the installation of LED on the street lights throughout the City.
- Total expenses decreased by \$340,678. This was largely due to increased expenses in general government \$200,451 and public safety \$171,530 while public works expenses decreased (\$753,382). The general government increase was a result of staff changes within the City Manager's department as well as election costs in the City Clerk department that did not occur in the prior year. The public safety increase was a result of contractual increases with LA County Sheriff. Public works decreases were primarily the result of capital projects activity that occurred during the prior year and the lack of similar activity in the current year.

The relationship of the City's program revenues with the related governmental functions is illustrated in Figure 2 below.

Public works and community development services are largely funded by program revenues. The general government, public safety, and recreation/senior services receive limited program revenue and are primarily funded with general revenues of the City. It is typical for governmental programs to be subsidized by General Fund revenues, as the program revenues are generally not adequate to finance the governmental programs.

Figure 2
Expense and Program Revenues

Business-type Activities

The analysis of business-type activities focuses on the net position and changes in net position of the City's sewer construction/maintenance functions which are presented in the government-wide financial statements.

Table 3
Business-type Activities Net Position

	2019	2018
Current and Other Assets	\$ 5,585,793	\$ 4,960,982
Capital Assets	10,186,384	10,328,973

Restricted	<u>5,540,306</u>	<u>4,935,754</u>
Total net position	<u>\$ 7,913,201</u>	<u>\$ 7,155,528</u>

Table 4
Business-type Activities Change in Net Position

	2019	2018
Revenues		
Charges for Services	\$1,519,628	\$1,325,479
Investment Income	94,030	70,912
Total Revenues	<u>1,613,658</u>	<u>1,396,391</u>
Expenses		
Sewer Assessment	577,487	574,300
Other Expenses	278,498	287,898
Total Expenses	<u>855,985</u>	<u>862,198</u>
Excess of Revenues over Expenses	<u>757,673</u>	<u>534,193</u>
Change in Net Position	757,673	534,193
Net Position, Beginning	<u>7,155,528</u>	<u>6,621,355</u>
Net Position, Ending	<u>\$7,913,201</u>	<u>\$7,155,528</u>

The net position of the City's business-type activities increased by \$757,673. As shown in Table 3, "Current and Other Assets" reflects an increase of \$624,811. The increase is primarily a result of capital projects, which had been planned for the 2018-2019 fiscal year and would have used current resources, not commencing by year-end resulting in an increase of cash balances. Further, the City's business-type activities show a decrease in liabilities of \$304,741. This decrease is due to the current year payment of the 2016 Sewer Revenue Refunding bond payment.

The City's business-type revenues exceeded program expenses by \$757,673 as shown in Table 4. Revenues increased by \$217,267 during the year due to additional property tax monies received and investment income. There was also a decrease in expenditures this year in the amount of \$6,213.

FINANCIAL ANALYSIS OF THE CITY'S MAJOR FUNDS

Governmental Funds – Fund Level

The City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. Focusing on financial resources, the City's Governmental Funds provide information on near-term inflows and outflows, and balances of spendable resources. This information is useful in assessing the City's ability to meet financial requirements. In particular, unreserved fund balance may serve as a useful measure of government net resources available for spending at the end of the fiscal year.

- Fund Balance – As of June 30, 2019, the City's Governmental Funds reported a combined fund balance of \$29,571,274, which increased by \$3,256,627 or 7.9% from the prior year fund balance.
- Fund Balance Classification
 - The City has \$11,480,704 in non-spendable fund balance as of June 30, 2019. Non-spendable fund balance includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. Examples are inventories, prepaid expenses, long-term receivables, or land held for resale.
 - Restricted fund balance amounted to \$8,323,281 at June 30, 2019. Restricted fund balance includes resources that are subject to externally enforceable legal restrictions.
 - The General Fund has unassigned fund balance of \$9,772,265. Unassigned fund balance is the residual classification for the City's General Fund and includes all spendable amounts not contained in the other classifications.

Major activities in the Governmental Funds in the current fiscal year include the following:

- General Fund – The General Fund ended the year with a \$21,252,969 fund balance, an increase of \$1,880,927 from the previous year. The reason for the increase in fund balance from fiscal year 2017-2018 was due to an increase in revenue from taxes such as property and sales and use tax and investment income related to better performance of investments as well as the market value adjustment at June 30, 2019. General government, public safety, and public works expenditures increased from the prior year but were offset by the fact that there were no capital outlay expenditures in the current year. This resulted in a small increase in expenditures from the prior year.

- General Fund Revenues exceeded budgeted revenues by \$2,068,870. This was primarily due to property tax revenues being \$1,004,692 higher than projected as a result of the City receiving additional property tax; the receipt of higher sales tax including sales tax revenue from Measure LP than anticipated; and licenses and permits, as well as charges for services, being \$278,716 and \$242,611, respectively, higher than projected due to greater development activity during the year. Investment income was also higher than projected by \$482,717 due to better investment performance during the year as well as the market value adjustment at June 30, 2019.
- Expenditures were \$56,219 higher than budgeted amounts. Public safety and recreation/senior services expenditures had favorable budget variances of \$262,935 and \$116,107, respectively. The public safety expenditure decrease was a result of staffing vacancies. The recreation/senior services decrease was a result of staffing vacancies and savings on community events. Public works and community development had unfavorable budget variances of \$133,032 and \$340,150, respectively. The public works expenditure increase was a result of unforeseen repairs to the City Hall air conditioning unit. The community development expenditure increase was a result of building and safety permits issued and the payment to the contractor that provides the service on behalf of the City.
- Lighting and Landscape fund revenue exceeded budget revenues by \$193,260. This was due to the City receiving a rebate check for the energy efficiency improvement project. Expenditures were \$86,091 higher than budgeted amounts. The community development expenditures came in under budget due to a savings related to energy consumption based on the energy efficiency improvement project. This reduction was offset by an increase in the projects costs related to the same energy efficiency improvement project.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The City's investment in capital assets, net of accumulated depreciation, for governmental and business-type activities as of June 30, 2019 is \$44,922,460. Capital assets, net of accumulated depreciation, include land, construction in progress, buildings and improvements, equipment, furniture, fixtures, and computer software and hardware. Infrastructure assets are reported at cost, where historical records are available and at estimated cost where no historical records exist.

The net decrease (additions minus deletions) in capital assets for the fiscal year was \$473,621. Additional information on the City's capital assets can be found in Note 5 of the financial statements. Table 5 shows a summary of changes in capital assets (net of depreciation) as of June 30, 2019.

Debt Administration

In November 2007 the City issued the 2007 Sewer Revenue Bonds for \$10,260,000. The City refinanced the bonds in August 2016 (2016 Sewer Refunding Bonds) to take advantage of lower interest rates. The refunding of the 2007 Sewer Revenue Bonds resulted in an annual savings of approximately \$62,000 in debt service payments through 2037. The debt service payment on the bonds will be made by the sewer fees collected from the City residents on their property tax bills.

In October 2015, the City signed an agreement with the City of Industry for a \$5,952,908 loan to be used for Valley Boulevard improvements. To date, the City has received \$1,422,945 of the loan proceeds. This figure includes an additional \$30,110 that was received in the current year that is offset by the current year payment of \$189,721. The loan has a term of 30 years at a simple interest rate of .33% (the LAIF interest rate at the time of signing). Payments on the loan were to be in the amount of \$208,741.57 annually and will be made from annual Measure R funds received by the City, however during the 2018-19 fiscal year; the City will not draw on any additional funds on this loan. A new amortization schedule was developed and approved by the City of Industry in October 2019 and the new annual payment will be \$53,287.

Additional information on the City's long-term debt can be found in Note 6 to the financial statements.

GENERAL FUND BUDGETARY ANALYSIS

The revenue budget for fiscal year 2018-19 was \$12,578,100. Actual General Fund revenues were higher than the final budgeted revenues by \$2,068,870. Most categories of revenues collected were higher than the budgeted projections. "Taxes" were \$1,004,692 higher than projected due to sales tax and property tax received being higher than anticipated. "Licenses and Permits" and "Charges for Services" were higher than anticipated as a result of increased development activity. "Investment Income" revenues were higher than expected due to the market value adjustment for investments.

Appropriations were budgeted at \$12,636,810. General Fund expenditures were \$12,785,967 which includes a transfer out of \$92,938. Factoring out the transfers, General Fund expenditures were \$56,219 more than the final budgeted expenditures. Public works and community development expenditures had unfavorable budget variances of \$133,032 and \$340,150, respectively. An increase in public works was a result of unforeseen repairs to the City Hall Air conditioning unit. The community development increase was a result of building and safety permits issued and the payment to the contractor that provides the service on behalf of the City. The unfavorable variances were offset by a decrease in expenditures in public safety and recreation/senior services totaling \$379,042. The public safety decrease in public safety expenditures was due to staffing vacancies and the decrease in recreation/senior services was also related to staffing vacancies and savings on community events.

NEXT YEAR'S BUDGET AND ECONOMIC FACTORS

The fiscal outlook for the region comprising Los Angeles, Orange, Riverside, San Bernardino, Imperial and Ventura counties expects milder growth in 2020. The rapid job growth, with full employment for the past year is slowing down. This is primarily based on employers having a hard time finding qualified new employees. Weakness in housing as well as the slowing U.S. economy is reflected in a very modest growth rate in the U.S. in late 2020. As a consequence, the expectation for average unemployment is expected to rise slightly to an average of 4.6% in the first quarter of 2021. For the entire year for 2020 and 2021, the expectation is that average unemployment will be 4.3% and 4.4%, respectively. Employment growth is expected to be 0.8% and 0.4%, while payroll jobs will likely grow at a rate of 0.8% and 0.6% for 2020 and 2021, respectively. Home building will be lower by about 9,000 units this year than previously forecasted, but grow to about 146,000 units run-rate by the end of the 2021 forecast. The significant building rate toward the end of the forecast will be a response to easing zoning and regulatory requirements for developers, and an expected reduction in interest rates by 2021. The City is projecting a slight increase in General Fund revenues in the coming year as property values continue to recover and the resulting property taxes increase. Additionally, the City is anticipating an increase in sales tax with the passage of Measure LP in November 2018 as well continued economic development efforts. As costs of providing service to the residents and businesses in La Puente continue to rise, City staff will diligently pursue opportunities to increase revenues and decrease expenditures.

The City's economic outlook and major initiatives for the coming year are discussed in detail in the accompanying Transmittal Letter.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the City of La Puente's finances for all those interested in them. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the City's Finance Department, at 15900 E. Main Street, La Puente, California, 91744.

City of La Puente
Reconciliation of the Balance Sheet of Governmental Funds
to the Statement of Net Position
June 30, 2019

Fund Balances for Governmental Funds	\$ 29,571,274
--------------------------------------	---------------

Amounts reported for Governmental Activities in the Statement of Net Position are different because:

Capital assets used in governmental activities, net of depreciation, are not financial resources and, therefore, are not reported in the funds.

Capital Assets	66,066,611
Accumulated Depreciation	(31,806,641)

Long-term liabilities applicable to the City's governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities. All liabilities, both current and long-term, are reported in the Statement of Net Position. Balances at June 30, 2019 are:

Loan Agreement	(1,422,945)
Compensated Absences	(251,030)
Net Pension Liability	(6,845,330)
Net OPEB Liability	(3,575,516)

Long-term receivables are not available to pay for current period expenditures and, therefore, are report as unavailable revenue in the funds.	4,551,660
--	-----------

Amounts for deferred inflows and deferred outflows related to the City's Net Pension Liability and Net OPEB Liability are not reported in the funds.

Deferred Outflows Related to Pensions	1,333,202
Deferred Inflows Related to Pensions	(354,538)
Deferred Outflows Related to OPEB	652,324

The internal service fund is used by management to charge the costs of equipment purchases to individual funds. The assets and liabilities of the internal service fund are included in governmental activities in the Statement of Net Position.

Net Position of Governmental Activities	<div style="border-top: 1px solid black; border-bottom: 3px double black; display: inline-block; width: 100%;">\$ 58,792,540</div>

The accompanying notes are an integral part of this statement.

City of La Puente
Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund
Balances of Governmental Funds to the Statement of Activities
Year Ended June 30, 2019

Net Change in Fund Balances - Total Governmental Funds \$ 3,256,627

Amounts reported for Governmental Activities in the Statement of Activities are different because:

Governmental funds report capital outlay as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over the estimated useful lives as depreciation expense. This the amount by which capital outlays exceeded depreciation in the current period and also the net effect of various miscellaneous transactions involving capital assets (i.e., sales and donations):

Capital Expenditures	1,174,466
Depreciation Expense	(1,498,411)

The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. These amounts are the net effect of these differences in the treatment of long-term debt and related items:

Principal Payments	189,721
Debt Incurred	(30,110)

Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds:

Compensated Absences	(7,964)
Net Pension Liability	70,228
Net OPEB Liability	206,159

Amounts for deferred inflows and deferred outflows related to the City's Net Pension Liability and Net OPEB Liability are not reported in the funds. This is the net change in deferred inflows and outflows related to the net pension liability and net OPEB liability:

Deferred Outflows Related to Pensions	(335,977)
Deferred Inflows Related to Pensions	(56,556)
Deferred Outflows Related to OPEB	83,595

Some revenues reported in the Statement of Activities are not considered to be available to finance current expenditures and therefore are not reported as revenues in the governmental funds.	249,773
--	---------

The change in net position of the internal service fund is reported with governmental activities.	23,310
---	--------

Change in Net Position of Governmental Activities	\$ 3,324,861

City of La Puente
Notes to Financial Statements
Year Ended June 30, 2019

1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A) Description of Reporting Entity

The City of La Puente was incorporated August 1, 1956 under the general laws of the State of California, and enjoys all the rights and privileges pertaining to "General Law" Cities. It is governed by a five-member council.

The accompanying financial statements present the City of La Puente and its component units, entities for which the City is considered to be financially accountable. Blended component units, although legally separate entities, are, in substance, part of the City's operations. Discretely presented component units, if any, are reported in a separate column in the government-wide financial statements (see note below for description) to emphasize that they are legally separate from the City. There are no discretely presented component units presented in these financial statements.

Blended Component Units

The City of La Puente Public Financing Authority is a Joint Exercise of Powers Authority organized and existing under and by virtue of the Joint Exercise of Power Act of the Government Code of the State of California. The City and the former Community Development Commission formed the Authority by the execution of a Joint Exercise of Powers Agreement. The primary purpose of the Authority is to issue bonds and make loans to the City and former Community Development Commission. The City appoints the voting majority of the board and is able to impose its will on this component unit. There are no separate financial statements prepared for the Authority.

B) Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information about the reporting government as a whole, except for its fiduciary activities. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government (including its blended component units) is reported separately from discretely presented component units for which the primary government is financially accountable. The City has no discretely presented component units.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are expenses that are clearly identifiable with a specific function or segment. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items that are properly not included among program revenues are reported instead as general revenues.

The underlying accounting system of the City is organized and operated on the basis of separate funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures or expenses, as appropriate. Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

City of La Puente
Notes to Financial Statements
Year Ended June 30, 2019

1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

C) Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund financial statements. Under the economic resources measurement focus, all assets and liabilities (whether current or noncurrent) associated with their activity are included on their balance sheets. Under the accrual basis of accounting, revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses. Nonexchange transactions, in which the City gives (or receives) value without directly receiving (or giving) equal value in exchange include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all the eligibility requirements have been satisfied.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are both collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current period, except for certain grants which are considered available if collected within 7 months after year-end. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, sales taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source. All other revenue items are considered to be measurable and available only when cash is received by the government.

The proprietary and private-purpose trust funds are reported using the economic resources measurement focus and the accrual basis of accounting. The agency fund has no measurement focus but utilizes the accrual basis of accounting for reporting its assets and liabilities.

City of La Puente
Notes to Financial Statements
Year Ended June 30, 2019

1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Fund Classifications

The funds designated as major funds are determined by a mathematical calculation consistent with GASB Statement No. 34, as amended. The City reports the following major governmental funds:

The General Fund is the City's primary operating fund and accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Lighting and Landscape Maintenance District Fund is used to account for special benefit assessments levied on property owners and used to pay for street lighting and landscape maintenance.

The City reports the following major enterprise funds:

The Sewer Assessment Fund is used to account for the repair and maintenance of the City's sewer system.

The City also reports the following fund types:

The Internal Service Fund is used to account for the replacement of City owned and operated vehicles, furniture and equipment, except for vans used in transit operations. The costs are accumulated in this fund and allocated as interfund user charges to other City departments.

The Successor Agency Private-Purpose Trust Fund accounts for the activities of the former La Puente Community Development Commission.

The Agency Funds are used to account for collection and payment of such items as performance bond deposits.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Direct expenses have not been eliminated from the functional categories; indirect expenses and internal payments have been eliminated.

D) Cash and Cash Equivalents

For purposes of the statement of cash flows, cash equivalents are defined as short-term, highly liquid investments that are both readily convertible to known amounts of cash or so near their maturity that they present insignificant risk of changes in value because of changes in interest rates. Cash equivalents also represent the proprietary funds' share in the cash and investment pool of the City of La Puente. Cash equivalents have an original maturity date of three months or less from the date of purchase.

E) Investments

Investments are reported in the accompanying financial statements at fair value (which represents the quoted or stated market value), except for nonparticipating certificates of deposit and investment contracts that would be reported at cost because they are not transferable and they have terms that are not affected by changes in market interest rates.

Changes in fair value that occur during a fiscal year are recognized as investment income reported for that fiscal year. Investment income includes interest earnings, changes in fair value, and any gains or losses realized upon the liquidation, maturity, or sale of investments.

City of La Puente
Notes to Financial Statements
Year Ended June 30, 2019

1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

The City pools cash and investments of all funds. Each fund's share in this pool is displayed in the accompanying financial statements as cash and investments. The City pools cash from all funds in order to increase income earned through its investment program. Investment income from pooled investments is allocated to those funds which are required by law or administrative action to receive interest. Investment income is allocated on a quarterly basis based on the weighted average cash balance in each fund.

F) Capital Assets

Capital assets, which include land, structures, equipment, and infrastructure assets, are reported in the government-wide and proprietary fund financial statements. Capital assets are recorded at cost where historical records are available and at an estimated historical cost where no historical records exist. Assets purchased in excess of \$5,000 are capitalized if they have an expected useful life of 2 years or more. Infrastructure is capitalized if cost is in excess of \$50,000 and it has an expected useful life of 2 years or more. The cost of normal maintenance and repairs that do not add to the value of the asset's lives are not capitalized.

Major capital outlay for capital assets and improvements are capitalized as projects are constructed. For debt-financed capital assets in proprietary funds, interest incurred during the construction phase is reflected in the capitalization value of the asset constructed, net of interest earned on the invested proceeds over the same period. Capital assets acquired through lease obligations are valued at the present value of future lease payments at the date acquired. Donated capital assets received prior to the implementation of GASB Statement No. 72 were recorded at fair value on the date of donation. Donated capital assets received subsequent to the implementation of GASB 72 are recorded at acquisition value as of the date received.

Capital assets used in operations are depreciated over their estimated useful lives using the straight-line method in the government-wide financial statements and in the fund financial statements of the proprietary funds. Depreciation is charged as an expense against operations and accumulated depreciation is reported on the respective statement of net position. The ranges of lives used for depreciation purposes for each capital asset class are as follows:

Buildings and Improvements	15 - 40 years
Equipment and Furniture	5 - 10 years
Infrastructure	20 - 60 years

G) Compensated Absences

In accordance with GASB Statement No. 16, a liability is recorded for unused vacation and similar compensatory leave balances since the employees' entitlement to these balances is attributable to services already rendered and it is probable that virtually all of these balances will be liquidated by either paid time off or payment upon termination or retirement.

Under GASB Statement No. 16, a liability is recorded for unused sick leave balances only to the extent that it is probable that the unused balances will result in termination payments. This is to be estimated by including in the liability the unused balances of employees currently entitled to receive termination payment, as well as those who are expected to become eligible to receive termination benefits as a result of continuing their employment with the City. It is the practice of the City to record a liability for one half of the unused sick leave balance. After five years of service, employees are able to receive a termination payment at the rate of one half of the employee's regular straight time hourly rate of pay at the time of termination.

City of La Puente
Notes to Financial Statements
Year Ended June 30, 2019

1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

All leave benefits are accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements. Leave benefits are generally liquidated by the general fund.

H) Claims and Judgments

When it is probable that a claim liability has been incurred at year-end, and the amount of the loss can be reasonably estimated, the City records the estimated loss, net of any insurance coverage under its self-insurance program. For governmental funds, if claims will not be liquidated from currently available resources, they are recorded only in the government-wide financial statements.

I) Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either “due to/from other funds” (i.e., the current portion of interfund loans) or “advances to/from other funds” (i.e., the non-current portion of interfund loans).

As a no-low property tax City, the City is allocated the minimum amount (6.6%) required by law. The County bills and collects the property taxes and remits them to the City in installments during the year. City property tax revenues are recognized when levied provided that the revenue is collected during the year or within 60 days of year-end. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on July 1, and are payable in two installments on November 1 and February 1. Such taxes become delinquent on December 10 and April 10, respectively.

J) Use of Estimates

The presentation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates and assumptions.

K) Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position and balance sheet for the governmental funds will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents consumption of net position that applies to future period(s) and so will not be recognized as an outflow of resources (expense) until then. The City reports deferred outflows related to the pension contributions in accordance with GASB Statement No. 68. In addition, the City reports deferred outflows relating to the 2016 Revenue Refunding Bonds.

In addition to liabilities, the statement of financial position and balance sheet for the governmental funds will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has one item, which arises only under the modified accrual basis of accounting, and another, which is a result of the

City of La Puente
Notes to Financial Statements
Year Ended June 30, 2019

1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

City's implementation of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, which qualify for reporting in this category. Under the modified accrual basis of accounting, the item, *unavailable revenues*, is reported in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes, special assessments, grant receivables, and other miscellaneous receivables. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

L) Fund Equity

In the government-wide, proprietary funds, and fiduciary fund financial statements, net position is classified in the following categories.

Net Investment in Capital Assets

This category groups all capital assets, including infrastructure, into one component of net position. Accumulated depreciation and the outstanding balances of debt that are attributable to the acquisition, construction or improvement of these assets reduce this category.

Restricted Net Position

This category presents external restrictions imposed by creditors, grantors, contributors, or laws and regulations of other governments and restrictions imposed by law through constitutional provisions or enabling legislation.

Unrestricted Net Position

This category represents the net position of the City that is not externally restricted for any project or other purpose.

M) Net Position Flow Assumption

Sometimes the City will fund outlays for a particular purpose from both restricted (e.g. restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the statement of net position, a flow assumption must be made about the order in which the resources are considered to be applied.

It is the City's policy to consider restricted net position to have been depleted before unrestricted net position.

N) Fund Balances

Fund balances in governmental funds are reported in classifications that comprise a hierarchy based primarily on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Sometimes the City will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted fund balance

City of La Puente
Notes to Financial Statements
Year Ended June 30, 2019

1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

Nonspendable - This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

Restricted - This classification includes amounts that can be spent only for specific purposes stipulated by constitution, external resource providers or through enabling legislation.

Committed - This classification includes amounts that can be used only for the specific purposes determined by a formal action or resolution of the City's highest level of decision-making authority (City Council). Committed amounts cannot be used for any other purpose unless the City Council removes or changes the specific use through the same type of formal action or resolution taken to establish the commitment. The City has no committed fund balances.

Assigned - This classification consists of funds that are set aside for specific purposes by the City's highest level of decision making authority or a body or official that has been given the authority to assign funds. The City Council delegates the authority to assign fund balance to the City Manager for purposes of reporting in the annual financial statements. The City has no assigned fund balances.

Unassigned - This classification includes the residual balance for the government's general fund and includes all spendable amounts not contained in other classifications. In other funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed or assigned.

O) Implementation of Governmental Accounting Standards Board (GASB) Pronouncements

GASB has issued the following Statements, which may impact the City's financial reporting requirements in the future:

GASB 84 - Fiduciary Activities: This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. The requirements of this Statement are effective for reporting periods beginning after December 15, 2018.

GASB 87 – Leases: This Statement requires recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019.

GASB 88 – Certain Disclosures Related to Debt: The primary objective of this Statement is to improve the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt. The requirements of this Statement are effective for reporting periods beginning after June 15, 2018.

City of La Puente
Notes to Financial Statements
Year Ended June 30, 2019

1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

GASB 89 – Accounting for Interest Cost Incurred before the End of a Construction Period: This Statement establishes accounting requirements for interest cost incurred before the end of a construction period. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019.

GASB 90 – Majority Equity Interests: The primary objective of this Statement is to improve the relevance of financial statement information for certain component units. The requirements of this Statement are effective for reporting periods beginning after December 15, 2018.

P) Pensions

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the City of La Puente's California Public Employees' Retirement System (CalPERS) plan (Plan) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Q) Other Postemployment Benefits (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the City's plan (OPEB Plan) and additions to/deductions from the OPEB Plan's fiduciary net position have been determined on the same basis. For this purpose, benefit payments are recognized when currently due and payable in accordance with the benefit terms. Investments are reported at fair value. Generally accepted accounting principles require that the reported results must pertain to liability and asset information within curtailed defined timeframes. For this report, the following timeframes are used:

Valuation Date	June 30, 2017
Measurement Date	June 30, 2018
Measurement Period	July 1, 2017 to June 30, 2018

2) CASH AND INVESTMENTS

Cash and investments at June 30, 2019 are summarized as follows:

2) CASH AND INVESTMENTS - Continued

Investments Authorized by the California Government Code and the City's Investment Policy

The table below identifies the investment types that are authorized for the City by the City's investment policy. The table also identifies certain provisions of the California Government Code (or the City's investment policy, where more restrictive) that address interest rate risk, credit risk, and concentration of credit risk.

Authorized Investment Type	Maximum Maturity	Maximum Allowable Investment Percentage	Maximum Investment In One Issuer
U.S. Treasury Obligations	5 years	None	None
U.S. Agency Securities	5 years	None	None
Banker's Acceptances	180 days	15%	2%
Repurchase Agreements	7 days	15%	None
Money Market Savings Accounts	N/A	None	\$250,000
Money Market Mutual Funds	N/A	15%	5%
County Pooled Investment Funds	N/A	5% of Pool	None
Certificates of Deposit	5 years	30%	\$250,000
Negotiable Certificates of Deposit	5 years	30%	\$250,000
Medium Term Notes	5 years	30%	None
Local Agency Investment Fund (LAIF)	N/A	None	\$65,000,000

Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the City manages its exposure to this risk is by purchasing a combination of shorter-term and longer-term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity over time as necessary to provide the cash flow and liquidity needed for operations. Information about the sensitivity of the fair values of the City's investments to market interest rate fluctuations is provided by the following table that shows the distribution of the City's investments by maturity:

Investment Type	Remaining Maturity (in Months)			Fair Value
	12 Months or Less	13 to 24 Months	25-60 Months	
Federal Farm Credit Bank	\$ -	\$ 506,738	\$ 749,046	\$ 1,255,784
Federal Home Loan Bank	749,105	526,938	748,058	2,024,101

Disclosures Relating to Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by (where applicable) the California Government Code or the City's investment policy and the actual rating as of year-end for each investment type.

Investment Type	Total Investment	Minimum Legal Rating	Rating as of Year End		
			AAA/AA	A and A-1	Unrated
Federal Farm Credit Bank	\$ 1,255,784	N/A	\$ 1,255,784	\$ -	\$ -
Federal Home Loan Bank	2,024,101	N/A	2,024,101	-	-
Federal Home Loan Mortgage Corp.	1,743,681	N/A	1,743,681	-	-
Federal National Mortgage Assoc.	1,986,572	N/A	1,986,572	-	-
Local Agency Obligations	255,930	N/A	255,930	-	-
Negotiable Certificates of Deposit	6,428,402	N/A	-	-	6,428,402
LAIF	7,380,689	N/A	-	-	7,380,689
Corporate Bonds	2,249,093	A	998,339	1,250,754	-
Held by Bond Trustee:					
Money Market Mutual Fund	137,527	N/A	137,527	-	-
Total	<u>\$ 23,461,779</u>		<u>\$ 8,401,934</u>	<u>\$ 1,250,754</u>	<u>\$ 13,809,091</u>

Concentration of Credit Risk

At June 30, 2019, the City had no investments in any one issuer (other than LAIF) that represent 5% or more of total City investments, except for investments in federal agency securities.

Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The California Government Code and the City's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits, other than the following provision for deposits: The California Government Code requires that a financial institution secure deposits made by state or local government units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure City deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits.

As of June 30, 2019, no deposits with financial institutions in excess of federal depository insurance limits were held in uncollateralized accounts.

The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party.

City of La Puente
Notes to Financial Statements
Year Ended June 30, 2019

2) CASH AND INVESTMENTS - Continued

The California Government Code and the City's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for investments. With respect to investments, custodial credit risk generally applies only to direct investments in marketable securities.

Custodial credit risk does not apply to a local government's indirect investment in securities through the use of mutual funds or government investment pools (such as LAIF). As of June 30, 2019, none of the City's investments were held by the broker-dealer (counterparty) that was used by the City to purchase the securities.

Fair Value

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The City has the following recurring fair value measurements as of June 30, 2019:

- Federal Agency securities of \$7,010,138 are valued using a matrix pricing model (Level 2 inputs).
- Local Agency Obligations of \$255,930 are valued using a matrix pricing model (Level 2 inputs).
- Negotiable Certificates of Deposit of \$6,428,402 are valued using a matrix pricing model (Level 2 inputs).
- Corporate Bonds of \$2,249,093 are valued using a matrix pricing model (Level 2 inputs).

Investment in State Investment Pool

The City is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by California Government Code Section 16429 under the oversight of the Treasurer of the State of California. The fair value of the Entity's investment in this pool is reported in the accompanying financial statements at amounts based on the City's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio).

The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis. Information regarding LAIF's and the City's exposure to risk (credit, market, or legal) is not currently available.

3) INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

Amounts Due To and Due From Other Funds

As of June 30, 2019, the General Fund is reporting \$154,284 as due from the other funds. The \$154,284 is due from the Other Governmental Funds. These outstanding balances between funds result from temporary borrowings to cover operating deficits.

Long-term Advances

As of June 30, 2019, the City's General Fund had advanced to the former Community Development Commission (CDC) \$15,633,287 (net of repayments), including interest receivable of \$4,547,729, to assist in redevelopment activities. In June 2011, Assembly Bill 26 (1st extraordinary session) dissolved the former CDC, effective (after some litigation on the matter) February 1, 2012.

City of La Puente
Notes to Financial Statements
Year Ended June 30, 2019

3) INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS - Continued

On April 26, 2013, the Department of Finance allowed the loan to be placed on the Recognized Obligation Payment Schedule (ROPS) as an enforceable obligation.

The principal balance of the receivable of \$11,085,558 accrues simple interest of 3% per year in accordance with Senate Bill 107. Repayment of the advance by the Successor Agency is contingent upon excess property taxes received by the Successor Agency after paying all other enforceable obligations. There is no established repayment schedule due to the uncertainty of the amounts available for repayment in a given year.

The entire principal portion of the receivable is included in non-spendable fund balance in the General Fund and the accrued interest receivable is included in deferred inflows as unavailable revenue.

Transfers In and Transfers Out

During the 2018-19 fiscal year, the following interfund transfers were made:

	Transfers In		Total
	General Fund	Other Governmental Funds	
Transfers Out			
General Fund	\$ -	\$ 92,938	\$ 92,938
Other Governmental Funds	19,924	208,742	228,666
Total	<u>\$ 19,924</u>	<u>\$ 301,680</u>	<u>\$ 321,604</u>

The General Fund transferred \$92,938 to the Other Governmental Funds for the Housing Successor Fund and other project costs; the Measure R Fund transferred \$208,742 to the Capital Projects Fund for the payment of the City of Industry loan.

4) LOANS RECEIVABLE

The City uses Housing and Community Development Block Grant and Cal-Home Grant funds to provide deferred payment housing rehabilitation loans to eligible applicants. Such loans are made to low- and moderate- income persons to improve or rehabilitate residences.

Loan repayments are deferred until homes are sold or change title. The City accounts for this program in the Special Revenue CDBG and Cal-Home Grant Funds. Rehabilitation loans receivable of \$1,404,257 at June 30, 2019 have been reflected in the accompanying financial statements as loans receivable.

City of La Puente
Notes to Financial Statements

5) CAPITAL ASSETS

The following is a summary of changes in capital assets for the 2018-19 fiscal year:

	Beginning Balance	Additions	Deletions	Ending Balance
Governmental Activities:				
Capital Assets, Not Depreciated:				
Land	\$ 3,621,179	\$ -	\$ -	\$ 3,621,179
Construction in Progress	399,725	1,236,496	354,096	1,282,125
Total Capital Assets, Not Depreciated	4,020,904	1,236,496	354,096	4,903,304
Capital Assets Being Depreciated:				
Buildings and Improvements	21,826,082	271,266	-	22,097,348
Equipment and Furniture	2,175,054	87,221	65,537	2,196,738
Infrastructure	38,263,209	15,000	-	38,278,209
Total Capital Assets, Depreciated	62,264,345	373,487	65,537	62,572,295
Less Accumulated Depreciation:				
Buildings and Improvements	(10,619,622)	(867,221)	-	(11,486,843)
Equipment and Furniture	(1,431,278)	(139,605)	(65,537)	(1,505,346)
Infrastructure	(19,167,241)	(580,093)	-	(19,747,334)
Total Accumulated Depreciation	(31,218,141)	(1,586,919)	(65,537)	(32,739,523)
Net Capital Assets, Depreciated	31,046,204	(1,213,432)	-	29,832,772
Governmental Activities Capital Assets	<u>\$ 35,067,108</u>	<u>\$ 23,064</u>	<u>\$ 354,096</u>	<u>\$ 34,736,076</u>
Business-type Activities:				
Capital Assets, Not Depreciated				
Construction in Progress	\$ -	\$ 44,310	\$ -	\$ 44,310
Total Capital Assets, Not Depreciated	-	44,310	-	44,310
Capital Assets Being Depreciated:				
Sewer Collection System	11,213,960	-	-	11,213,960
Total Capital Assets, Depreciated	11,213,960	-	-	11,213,960
Less Accumulated Depreciation:				
Sewer Collection System	(884,987)	(186,899)	-	(1,071,886)
Net Capital Assets, Depreciated	10,328,973	(186,899)	-	10,142,074
Business-type Activities Capital Assets	<u>\$ 10,328,973</u>	<u>\$ (142,589)</u>	<u>\$ -</u>	<u>\$ 10,186,384</u>

Depreciation expense was charged to functions/programs of the governmental activities as follows:

General Government	\$ 14,792
Public Works	653,535
Recreation/Senior Services	789,951
Community Development	40,133
Capital Assets held by internal service funds are charged to the various functions based on usage of the assets	88,508
Total Depreciation Expense - Governmental Activities	<u>\$ 1,586,919</u>

City of La Puente
Notes to Financial Statements
Year Ended June 30, 2019

6) LONG-TERM LIABILITIES

The following is a summary of long-term liability transactions for the year ended June 30, 2019:

	Beginning Balance	Additions	Deletions	Ending Balance	Due Within One Year
Governmental Activities:					
Loan Payable from Direct Borrowing:					
City of Industry Loan Agreement	\$ 1,582,556	\$ 30,110	\$ 189,721	\$ 1,422,945	\$ 48,591
Compensated Absences	243,066	214,235	206,271	251,030	222,805
Net OPEB Liability	3,781,675	145,450	351,609	3,575,516	-

City of Industry Loan Agreement

In October of 2015, the City entered into an agreement to borrow funds from the City of Industry to finance construction of a sound wall and other improvements on Valley Boulevard. The City of Industry has agreed to lend the City of La Puente up to \$5,952,908 for these improvements, at a simple interest rate of .33%. As of June 30, 2019, the City has borrowed \$1,422,945 on this loan, net of \$378,818 in principal payments. The agreement provides for annual loan repayments of \$208,742, commencing November 1, 2017, however, during the 2018-19 fiscal year, the City decided not to draw down any additional funds on this loan. A new amortization schedule was developed and approved by the City of Industry in October 2019. The following represents the future debt service requirements:

Fiscal Year Ending June 30,	Principal	Interest	Total
2020	\$ 48,591	\$ 4,696	\$ 53,287
2021	48,752	4,535	53,287
2022	48,913	4,374	53,287
2023	49,074	4,213	53,287
2024	49,236	4,051	53,287
2025-2029	248,629	17,806	266,435
2030-2034	252,758	13,677	266,435

6) LONG-TERM LIABILITIES – Continued

2016 Sewer Revenue Refunding Bonds

In August of 2016, the La Puente Financing Authority (a component unit of the City of La Puente) issued \$9,340,000 in Sewer Revenue Refunding Bonds to refund the 2007 Sewer Revenue Bonds. Proceeds from the 2016 bonds were placed in escrow to refund in full the 2007 bonds, and to pay costs of issuance. As a result, the 2007 bonds are considered defeased and the liability has been removed from these financial statements.

The 2016 bonds mature in amounts from \$315,000 to \$565,000 annually from 2017 to 2038, with interest payments of 2.93% payable semi-annually on June 1 and December 1 of each year. The bonds were issued to provide funds to construct improvements for the City's sewer system. The bonds are payable from and secured by the Authority's pledge under the indenture of that portion of "Revenues" necessary to pay debt service on the bonds and any parity bonds issued under the indenture. "Revenues" are derived of installment payments to be made by the City pursuant to an Installment Sale Agreement dated as of November 1, 2007, between the City and the Authority. Installment payments are payable from net revenues, defined generally as gross revenues received from the sewer system, less maintenance and operation costs.

Pledged revenues for subsequent fiscal years through 2038 are estimated at \$11.0 million. This represents approximately 48% of the total revenues from the sewer system. The pledged revenues for the 2018-19 fiscal year amounted to approximately \$1 million, while the debt service requirements on the related debt were approximately \$575,000. Future debt service requirements on the 2016 Sewer Revenue Refunding Bonds are as follows:

Fiscal Year Ending June 30,	Principal	Interest	Total
2020	\$ 335,000	\$ 240,333	\$ 575,333
2021	345,000	230,371	575,371
2022	355,000	220,116	575,116
2023	365,000	209,568	574,568
2024	375,000	198,727	573,727
2025	390,000	187,520	577,520
2026	400,000	175,947	575,947
2027	410,000	164,080	574,080
2028	420,000	151,921	571,921
2029	435,000	139,395	574,395
2030	450,000	126,430	576,430
2031	460,000	113,098	573,098
2032	475,000	99,400	574,400
2033	485,000	85,336	570,336
2034	505,000	70,833	575,833
2035	520,000	55,817	575,817
2036	530,000	40,434	570,434
2037	550,000	24,612	574,612
2038	565,000	8,277	573,277
Totals	<u>\$ 8,370,000</u>	<u>\$ 2,542,215</u>	<u>\$ 10,912,215</u>

Although the City is subject to a legal debt margin of approximately \$331 million, there is currently no outstanding debt subject to this limit.

City of La Puente
Notes to Financial Statements
Year Ended June 30, 2019

6) LONG-TERM LIABILITIES – Continued

Fiduciary Fund Long-term Liabilities

Long-term liabilities of the former La Puente CDC were transferred to the Successor Agency Private-purpose Trust Fund during 2011-12 as a result of the State's action to dissolve redevelopment agencies. The following is a schedule of changes in long-term debt of the Successor Agency for the fiscal year ended June 30, 2019:

	Beginning Balance	Additions	Deletions	Ending Balance	Due Within One Year
Tax Allocation Refunding Bonds: Series 2014A	\$ 3,445,000	\$ -	\$ 110,000	\$ 3,335,000	\$ 115,000

2014A Tax Allocation Refunding Bonds

In August 2014, the Successor Agency \$3,760,000 Tax Allocation Revenue Refunding Bonds, Series 2014, which mature in amounts from \$100,000 to \$255,000 annually until 2038 with interest payments of 4.35% payable semi-annually on February 1 and August 1 of each year. The purpose of the bonds was to refund the 2007 Tax Allocation Bonds issued by the former La Puente Community Development Commission. The bonds are special obligations of the Successor Agency and are payable exclusively from Pledged Tax Revenues. The bonds are not a debt, liability or obligation of the City of La Puente (the "City"), the County of Los Angeles (the "County"), the State of California or any of its political subdivisions, other than the Commission. In no event shall the bonds be payable out of any funds or properties other than those of the Commission. Future debt service requirements on the 2014A Tax Allocation Refunding Bonds are as follows:

Fiscal Year Ending June 30,	Principal	Interest	Total
2020	\$ 115,000	\$ 142,571	\$ 257,571
2021	120,000	137,460	257,460
2022	125,000	132,131	257,131
2023	130,000	126,585	256,585
2024	135,000	120,821	255,821
2025	145,000	114,731	259,731
2026	145,000	108,424	253,424
2027	155,000	101,899	256,899
2028	160,000	95,048	255,048
2029	170,000	87,870	257,870
2030	180,000	80,257	260,257

2034	215,000	46,219	261,219
2035	220,000	36,758	256,758
2036	235,000	26,861	261,861
2037	245,000	16,421	261,421
2038	255,000	5,546	260,546
Totals	\$ 3,335,000	\$ 1,571,329	\$ 4,906,329

City of La Puente
Notes to Financial Statements
Year Ended June 30, 2019

7) RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters for which the City participates in the California Joint Powers Insurance Authority (Authority) as follows:

Description of Self-Insurance Pool Pursuant to Joint Powers Agreement

The Authority is composed of 116 California public entities and is organized under a joint powers agreement pursuant to California Government Code §6500 et seq. The purpose of the Authority is to arrange and administer programs for the pooling of self-insured losses, to purchase excess insurance or reinsurance, and to arrange for group purchased insurance for property and other lines of coverage. The Authority began covering claims of its members in 1978. Each member government has an elected official as its representative on the Board of Directors. The Board operates through a nine-member Executive Committee.

Self-Insurance Programs of the Authority

Each member pays an annual contribution at the beginning of the coverage period. A retrospective adjustment is then conducted annually thereafter, for coverage years 2012-13 and prior. Coverage years 2013-14 and forward are not subject to routine annual retrospective adjustment. The total funding requirement for primary self-insurance programs is based on an actuarial analysis. Costs are allocated to individual agencies based on payroll and claims history, relative to other members of the risk-sharing pool.

Liability

Claims are pooled separately between police and general government exposures. (1) The payroll of each member is evaluated relative to the payroll of other members. A variable credibility factor is determined for each member, which establishes the weight applied to payroll and the weight applied to losses within the formula. (2) The first layer of losses includes incurred costs up to \$30,000 for each occurrence and is evaluated as a percentage of the pool's total incurred costs within the first layer. (3) The second layer of losses includes incurred costs from \$30,000 to \$750,000 for each occurrence and is evaluated as a percentage of the pool's total incurred costs within the second layer. (4) Incurred costs from \$750,000 to \$50 million, are distributed based on the outcome of cost allocation within the first and second loss layers.

The overall coverage limit for each member, including all layers of coverage, is \$50 million per occurrence. Subsidence losses have a sub-limit of \$40 million per occurrence. The coverage structure includes retained risk that is pooled among members, reinsurance, and excess insurance. More detailed information about the various layers of coverage is available on the following website: <https://cjpia.org/protection/coverage-programs>.

Worker's Compensation

Claims are pooled separately between public safety (police and fire) and general government exposures. (1) The payroll of each member is evaluated relative to the payroll of other members. A variable credibility factor is determined for each member, which establishes the weight applied to payroll and the weight applied to losses within the formula. (2) The first layer of losses includes incurred costs up to \$50,000 for each occurrence and is evaluated as a percentage of the pool's total incurred costs within the first layer. (3) The second layer of losses includes incurred costs from \$50,000 to \$100,000 for each occurrence and is evaluated as a percentage of the pool's total incurred costs within the second layer. (4) Incurred costs from \$100,000 to statutory limits are distributed based on the outcome of cost allocation within the first and second loss layers.

City of La Puente
Notes to Financial Statements
Year Ended June 30, 2019

7) RISK MANAGEMENT - Continued

For 2018-19 the Authority's pooled retention is \$2 million per occurrence, with reinsurance to statutory limits under California Workers' Compensation Law. Employer's Liability losses are pooled among members to \$2 million. Coverage from \$2 million to \$5 million is purchased as part of a reinsurance policy, and Employer's Liability losses from \$5 million to \$10 million are pooled among members.

Purchased Insurance

Pollution Legal Liability Insurance

The City of La Puente participates in the pollution legal liability insurance program which is available through the Authority. The policy covers sudden and gradual pollution of scheduled property, streets, and storm drains owned by the City of La Puente. Coverage is on a claims-made basis. There is a \$50,000 deductible. The Authority has an aggregate limit of \$50 million for the 3-year period from July 1, 2017 through July 1, 2020. Each member of the Authority has a \$10 million sub-limit during the 3-year policy term.

Property Insurance

The City of La Puente participates in the all-risk property protection program of the Authority. This insurance protection is underwritten by several insurance companies. City of La Puente property is currently insured according to a schedule of covered property submitted by the City of La Puente to the Authority. City of La Puente property currently has all-risk property insurance protection in the amount of \$25,052,548. There is a \$10,000 deductible per occurrence except for non-emergency vehicle insurance which has a \$2,500 deductible.

Earthquake and Flood Insurance

The City of La Puente purchases earthquake and flood insurance on a portion of its property. The earthquake insurance is part of the property protection insurance program of the Authority. City of La Puente property currently has earthquake protection in the amount of \$0. There is a deductible of 5% per unit of value with a minimum deductible of \$100,000.

Crime Insurance

The City of La Puente purchases crime insurance coverage in the amount of \$1,000,000 with a \$2,500 deductible. The fidelity coverage is provided through the Authority.

Special Event Tenant User Liability Insurance

The City of La Puente further protects against liability damages by requiring tenant users of certain property to purchase low-cost tenant user liability insurance for certain activities on agency property. The insurance premium is paid by the tenant user and is paid to the City of La Puente according to a schedule. The City of La Puente then pays for the insurance. The insurance is facilitated by the Authority.

Adequacy of Protection

During the past three fiscal years, none of the above programs of protection experienced settlements or judgments that exceeded pooled or insured coverage. There were also no significant reductions in pooled or insured liability coverage in 2018-19.

Claims and Judgments

The City accounts for uninsured, material claims and judgments and associated legal and administrative costs when it is probable that the liability claim has been incurred and the amount of the loss can be reasonably

City of La Puente
Notes to Financial Statements

7) RISK MANAGEMENT - Continued

estimated. Included therein are claims incurred but not reported, which consists of (a) known loss events expected to be presented as claims later, (b) unknown loss events that are expected to become claims, and (c) expected future development on claims already reported. This is based upon historical actual results that have established a reliable pattern supplemented by specific information about current matters. Small dollar claims and judgments are recorded as expenditures when paid.

8) PENSION PLAN

General Information about the Pension Plan

Plan Description – All qualified permanent and probationary employees are eligible to participate in the Public Agency Cost-Sharing Multiple-Employer Defined Benefit Pension Plan (Plan) administered by the California Public Employees' Retirement System (CalPERS.) The Plan consists of individual rate plans (benefit tiers) within a miscellaneous risk pool. Plan assets may be used to pay benefits for any employer rate plan of the miscellaneous pool. Accordingly, rate plans within the miscellaneous pool are not separate plans under GASB Statement No. 68. Individual employers may sponsor more than one rate plan in the miscellaneous pool. The City sponsors two rate plans. Benefit provisions under the Plan are established by State statute and City resolution. CalPERS issues publicly available reports that include a full description of the pension plan regarding benefit provisions, assumptions and membership information that can be found on the CalPERS website.

Benefits Provided – The Plan is a cost-sharing multiple-employer defined benefit pension plan administered by the California Public Employees' Retirement System (CalPERS). A full description of the pension plan benefit provisions, assumptions for funding purposes but not accounting purposes, and membership information is listed in the June 30, 2017 Annual Actuarial Valuation Report. Details of the benefits provided can be obtained in Appendix B of the June 30, 2017 actuarial valuation report. This report is a publicly available valuation report that can be obtained at CalPERS' website under Forms and Publications. The rate plan provisions and benefits in effect at June 30, 2019, are summarized as follows:

	Miscellaneous	Misc. PEPR
	Prior to	On or after
	January 1, 2013	January 1, 2013
Hire date		
Benefit formula	2.5% @ 55	2% @ 62
Benefit vesting schedule	5 years service	5 years service
Benefit payments	monthly for life	monthly for life
Retirement age	55	62
Monthly benefits, as a % of eligible compensation	Last 12 Mos. of Service	Last 36 Mos. of Service
Required employee contribution rates	8%	7%
Required employer contribution rates	12.588% + \$383,290	7.557% + \$270

Contributions – Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Funding contributions for the Plans are determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The City is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

City of La Puente
Notes to Financial Statements
Year Ended June 30, 2019

8) PENSION PLAN - Continued

Beginning in fiscal year 2016, CalPERS collects employer contributions for the Plan as a percentage of payroll for the normal cost portion as noted in the rates above and as a dollar amount for contributions toward the unfunded liability. The dollar amounts are billed on a monthly basis. The City's required contribution for the unfunded liability was \$383,560 in fiscal year 2019. The City's contributions to the Plan for the year ended June 30, 2019 were \$536,963.

Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of Resources for Pensions

As of June 30, 2019, the City reported a liability of \$6,845,330 for its proportionate share of the net pension liability. The City's net pension liability for the Plan is measured as the proportionate share of the net pension liability. The net pension liability of the Plan is measured as of June 30, 2018, and the total pension liability for the Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2017 rolled forward to June 30, 2018 using standard update procedures.

The City's proportion of the net pension liability was based on a projection of the City's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. The City's proportionate share of the Plan's net pension liability as of June 30, 2017 and 2018 was as follows:

Proportion - June 30, 2017	0.17543%
Proportion - June 30, 2018	<u>0.18164%</u>
Change - Increase (Decrease)	<u>0.00621%</u>

For the year ended June 30, 2019, the City recognized pension expense of \$859,268. At June 30, 2019, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows	Deferred Inflows
Pension contributions subsequent to measurement date	\$ 536,963	\$ -
Differences between actual and expected experience	173,267	-
Changes in assumptions	589,130	-
Differences between employer's contributions and proportionate share of contributions	-	174,267
Change in employer's proportions	-	180,271
Net differences between projected and actual earnings on plan investments	<u>33,842</u>	<u>-</u>
Total	<u>\$ 1,333,202</u>	<u>\$ 354,538</u>

The \$536,963 reported as deferred outflows related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2020. Other amounts reported as deferred outflows and deferred inflows related to pensions will be recognized as pension expense as follows:

City of La Puente
Notes to Financial Statements
Year Ended June 30, 2019

8) PENSION PLAN - Continued

Year Ending June 30,	
2020	\$ 547,908
2021	250,065
2022	(294,702)
2023	(61,570)
2024	-
Thereafter	-

Actuarial Assumptions – The total pension liabilities in the June 30, 2017 actuarial valuations were determined using the following actuarial assumptions:

Valuation date	June 30, 2017
Measurement date	June 30, 2018
Actuarial cost method	entry-age normal
Actuarial assumptions:	
Discount rate	7.15%
Inflation	2.75%
Projected salary increase	(1)
Investment rate of return	7.15%
Mortality	(2)

- (1) Depending on age, service and type of employment
(2) Derived using CalPERS' Membership Data for all Funds.

The mortality table used was developed based on CalPERS-specific data. The table includes 15 years of mortality improvements using Society of Actuaries Scale 90% of scale MP 2016. For more details on this table, please refer to the December 2017 experience study report (based on CalPERS demographic data from 1997 to 2015) that can be found on the CalPERS website.

Long-term Expected Rate of Return - The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows.

Using historical returns of all the funds' asset classes, expected compound returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund.

The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equal to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses. The expected real rates of return by asset class are as follows:

City of La Puente
Notes to Financial Statements
Year Ended June 30, 2019

8) PENSION PLAN - Continued

Asset Class	New Strategic Allocation	Real Return Years 1 - 10 (1)	Real Return Years 11+ (2)
Global Equity	50%	4.80%	5.98%
Global Fixed Income	28%	1.00%	2.62%
Inflation Assets	-	0.77%	1.81%
Private Equity	8%	6.30%	7.23%
Real Assets	13%	3.75%	4.93%
Liquidity	1%	-	-0.92%

(1) An expected inflation of 2.0% used for this period.

(2) An expected inflation of 2.92% used for this period.

Discount Rate – The discount rate used to measure the total pension liability for PERF C was 7.15%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate – The following presents the City's proportionate share of the net pension liability for the Plan, calculated using the discount rate for the Plan, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

1% Decrease	6.15%
Net Pension Liability	\$ 9,875,318
Current Discount Rate	7.15%
Net Pension Liability	\$ 6,845,330
1% Increase	8.15%
Net Pension Liability	\$ 4,344,125

Pension Plan Fiduciary Net Position – Detailed information about the Plan's fiduciary net position is available in the separately issued CalPERS financial reports.

Payable to the Pension Plan

At June 30, 2019, the City reported no payables due to the pension plan, for outstanding contributions.

9) OTHER POSTEMPLOYMENT BENEFITS

General Information About the OPEB Plan

Plan Description – The City has established the La Puente Retiree Healthcare Plan (LPRHCP), and participates in an agent multiple-employer defined benefit retiree healthcare plan. A separate financial report is not prepared for the LPRHCP.

City of La Puente
Notes to Financial Statements
Year Ended June 30, 2019

9) OTHER POST EMPLOYMENT BENEFITS - Continued

Benefits Provided – Under the LPRHCP, retirees are eligible for benefits as follows:

	Eligible Employees
Benefit types provided	Medical, dental, vision
Duration of Benefits	Lifetime
Required Service	10 years*
Minimum Age	50
Dependent Coverage	Yes
City Contribution	50% of employer contribution at 10 years of service for medical plus 5% per additional year to 100% at 20 or more years of service
City Cap	\$2,000 per year in dental and vision expenses

*Those hired prior to 8/1/08 require only CalPERS retirement to receive 100% of employer contribution.

Employees Covered by Benefit Terms – As of the June 30, 2017 actuarial valuation, the following current and former employees were covered by the benefit terms under the LPRHCP:

Retirees or spouses of retirees currently receiving benefits	28
Active employees	<u>26</u>
	<u><u>54</u></u>

Contributions – The LPRHCP plan and its contribution requirements are established by Memoranda of Understanding with the applicable employee bargaining units and may be amended by agreements between the City and the bargaining units. The annual contribution is based on the actuarially determined contribution. For the fiscal year ended June 30, 2019, the City's cash contributions were \$375,600 in payments to the trust and the payments for retiree health benefits was \$265,155 resulting in total payments of \$640,755. In a prior fiscal year, the City created a trust account with the California Public Employers' Retiree Benefit Trust (CERBT). The CERBT issues a publicly available report that can be found on the CalPERS website.

Net OPEB Liability - The City's net OPEB liability was measured as of June 30, 2017 and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation dated June 30, 2017, based on the following actuarial methods and assumptions:

Valuation Date	June 30, 2017
Actuarial Cost Method	Entry Age Actuarial Cost
Mortality	2014 CalPERS Active Mortality for Miscellaneous Employees
Age at Retirement	52
Health Care Trend Rate	4.00%
Inflation Rate	2.75%
Salary Changes	2.75%
Discount Rate	7.00%

City of La Puente
Notes to Financial Statements
Year Ended June 30, 2019

9) OTHER POST EMPLOYMENT BENEFITS - Continued

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Rate of Return
US Large Cap	43%	7.950%
US Small Cap	23%	7.950%
Long-term Corporate Bonds	12%	5.295%
Long-term Government Bonds	6%	4.500%
Treasury Inflation Protected Securities (TIPS)	5%	7.950%
US Real Estate	8%	7.950%
All Commodities	3%	7.950%
Total	100.00%	

Discount Rate – The discount rate used to measure the total OPEB liability was 7.00 percent. The projection of cash flows used to determine the discount rate assumed that City contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected OPEB payments for current active and inactive employees and beneficiaries. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Changes in the Net OPEB Liability

	Increase (Decrease)		
	Total OPEB Liability (TOL)	Plan Fiduciary Net Position	Net OPEB Liability/(Asset)

OPEB Expense and Recognition of Deferred Outflows/Inflows of Resources Related to OPEB

Gains and losses related to changes in total OPEB liability and fiduciary net position are recognized in OPEB expense systematically over time. Amounts are first recognized in OPEB expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to OPEB and are to be recognized in future OPEB expense.

The recognition period differs depending on the source of the gain or loss:

Net difference between projected and actual
earnings on OPEB plan investments:

5 years

All other amounts:

Expected average remaining service lifetime
(EARSL) (6.0 years at June 30, 2017)

For the year ended June 30, 2019, the City recognized OPEB expense of \$351,609. The City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows	Deferred Inflows
OPEB Contributions Subsequent to the Measurement Date	\$ 640,755	\$ -
Changes of Assumptions	-	-
Investment Gain/Loss	11,569	-
Net differences between projected and actual earnings on plan investments	-	-
Total	<u>\$ 652,324</u>	<u>\$ -</u>

City of La Puente
Notes to Financial Statements
Year Ended June 30, 2019

9) OTHER POST EMPLOYMENT BENEFITS - Continued

The \$640,755 reported as deferred outflows of resources related to contributions subsequent to the June 30, 2018 measurement date will be recognized as a reduction of the net OPEB liability during the fiscal year ended June 30, 2020. Other amounts reported as deferred outflows of resources related to OPEB will be recognized as expense as follows:

Year Ending June 30,	
2020	\$ 2,893
2021	2,893
2022	2,893
2023	2,890
2024	-
Thereafter	-

10) FUND BALANCES

Details of the City's governmental fund balances at June 30, 2019, are presented below:

	General Fund	Lighting and Maintenance Landscape District	Other Governmental Funds	Total

The Miscellaneous Grants and CDBG nonmajor Special Revenue funds have a deficit fund balance of \$3,931 and \$1,045, respectively, as of June 30, 2019. These deficits will be eliminated when unavailable revenues are realized in the next fiscal year.

11) OTHER INFORMATION

Contingent Liabilities

Claims and lawsuits have been filed against the City in the normal course of business. The outcome of these matters is not presently determinable. However, in the opinion of management, the resolution of these matters is not expected to have a significant impact on the financial condition of the City.

City of La Puente
Notes to Financial Statements
Year Ended June 30, 2019

11) OTHER INFORMATION - Continued

Other Commitments and Contingencies

The City has received state and federal funds for specific purposes that are subject to review and audit by the grantor agencies. Although such audits could generate expenditure disallowances under terms of the grants, it is believed that any required reimbursements will not be material.

The estimated amount of remaining construction contract obligations at year-end is \$57,936.

12) SUBSEQUENT EVENTS

In November 2019, subsequent to the end of the fiscal year, the La Puente Public Financing Authority issued the Sales Tax Revenue Measure M Series 2019A and Measure R Series 2019B Bonds (the "Bonds") for \$3,910,000 and \$3,470,000, respectively. Proceeds from the Bonds will be used to finance a portion of the costs associated with certain transportation projects, purchase a reserve surety, and bond issuance costs. The Bonds are secured by pledged Measure M and Measure R receipts.

BUDGETS AND BUDGETARY ACCOUNTING

The City follows the following procedures in establishing the budgetary data reflected in the financial statements:

- Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds. All annual appropriations lapse at fiscal year-end.
- The City Council approves total budgeted appropriations. The appropriated budget is prepared by fund, program and activity. Each program of the City represents a separate government function, namely: general government, public safety, transportation, culture and leisure, community development and redevelopment and housing. Accordingly, each program of the City has been identified as a separate line item in the accompanying combined statement of revenues, expenditures and changes in fund balances. The City Manager is authorized to make appropriation transfers from one activity to another leaving the total fund appropriation unchanged within the same fund. City Council approves all other amendments to appropriations throughout the year. Actual expenditures may not exceed budgeted appropriations at the fund level. Budget figures used in the financial statements are the final adjusted amounts.
- Formal budget integration is employed as a management control device during the year.
- Under Article XIII B of the California Constitution (the Gann Spending Litigation Initiative), the City is restricted as to the amount of annual appropriations from the proceeds of taxes, and if proceeds of taxes exceed allowed appropriations, the excess must either be refunded to the State Controller, returned to the taxpayers through revised tax rates, or revised fee schedules, or an excess in one year may be offset against a deficit in the following year. For the fiscal year ended June 30, 2019, based on calculations by City management, proceeds of taxes did not exceed appropriations. Further, Section 5 of Article XIII B allows the City to designate a portion of fund balance for general contingencies, to be used for any purpose.
- The General and Lighting and Landscape Maintenance Special Revenue Funds expenditures' exceeded appropriations in the current year by \$56,219 and \$86,091, respectively.

SUPPLEMENTARY INFORMATION

City of La Puente
Other Governmental Funds
June 30, 2019

SPECIAL REVENUE FUNDS

Special revenue funds account for specific revenues that are legally restricted to expenditures for particular purposes. The other special revenue funds include:

Gas Tax Fund – To account for gasoline taxes received by the City. These funds may be used for street maintenance, right-of-way acquisition and street construction.

Measure M Fund - To account for revenues received from Los Angeles County under Measure M that are to be used exclusively for street and transportation projects.

Prop. C Transportation Fund – To account for revenues received from the Los Angeles County Metropolitan Transportation Authority under Proposition C that are to be used for transportation related purposes

Asset Seizure Fund - To account for the revenues received from asset forfeiture fines and for the expenditure of these funds.

PEG Access Fund - Accounts for funds received to develop public, educational, and governmental access to cable television.

State COPS Fund - To account for funds received from the State of California under AB3229 for the purpose of the Citizens Option for Public Safety (COPS) program.

Office of Traffic Safety Fund - To account for receiving and expending fees collected for the impoundment of vehicles at a La Puente Traffic Offender Program (LAPTOP) check point.

JAG Grant Fund - To account for revenues received from the Justice Assistance Grant Program that are to be used exclusively for law enforcement programs.

Cal-HOME Grant Fund - To account for funding from the Department of Housing and Urban Development (HUD) in the form of grant to provide decent housing for low and moderate income families.

CDBG Grant Fund - To account for the funds received from the Community Development Block Grant for housing loans, code enforcement, and senior services program.

Air Quality Improvement Fund - Accounts for clean air fees collected by the State and distributed by the Southern California Air Quality Management District to cities for clean air project expenditures.

Measure R Fund - To account for revenues received from Los Angeles County under Measure R that are to be used exclusively for transportation projects and improvements.

Prop. A Transportation Fund - To account for revenues received from Los Angeles County under Proposition A that are to be used exclusively for public transit.

Local Transportation Fund - This fund is to account for the funds received from the State to improve street access for bicycle and pedestrian.

City of La Puente
Other Governmental Funds
June 30, 2019

SPECIAL REVENUE FUNDS – Continued

Highway Safety Improvement Program (HSIP) Grant Fund - This fund is to account for grant money received from Caltrans to be used for public roads to achieve a significant reduction in traffic fatalities and serious injuries.

Miscellaneous Grants Fund - To account for the various grants restricted for specific purposes.

Housing Fund - The Housing Fund is used to account for revenues received and expenditures made for affordable housing. The primary sources of revenue are from loan repayments generated from the use of the former Community Development Commission's Low and Moderate Income Housing Funds.

CAPITAL PROJECTS FUND

Capital Projects Fund – To account for loan proceeds restricted for certain capital projects, and other related expenditures.

Notes:

¹In 1978, California voters passed Proposition 13 which set the property tax rate at a 1.00% fixed amount. This 1.00% is shared by all taxing agencies for which the subject property resides within. In addition to the 1.00% fixed amount, property owners are charged taxes as a percentage of assessed property values for the payment of any voter approved bonds.

²Overlapping rates are those of local and county governments that apply to property owners within the City. Not all overlapping rates apply to all city property owners.

³City's Share of 1% Levy is based on the City's share of the general fund tax rate area with the largest net taxable value within the city. ERAF general fund tax shifts may not be included in tax ratio figures.

⁴Redevelopment Rate is based on the largest RDA tax rate area and includes only rate(s) from indebtedness adopted prior to 1989 per California State statute. RDA direct and overlapping rates are applied only to the incremental property values. The approval of ABX1 26 eliminated Redevelopment from the State of California for the fiscal year 2012/2013 and years thereafter.

⁵Total Direct Rate is the weighted average of all individual direct rates applied by the government preparing the statistical section information. Beginning 2013/14 the Total Direct Rate no longer includes revenue generated from the former redevelopment tax rate areas. Challenges to recognized enforceable obligations are assumed to have been resolved during 2012/13. For the purposes of this report, residual revenue is assumed to be distributed to the City in the same proportions as general fund revenue.

*This fund is a portion of a larger agency, and is responsible for debt in areas outside the City.

This report reflects debt which is being repaid through voter-approved property tax indebtedness. It excludes mortgage revenue, tax allocation bonds, interim financing obligations, non-bonded capital lease obligations, and certificates of participation, unless provided by the City.

Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. The percentage of overlapping debt applicable is estimated by using taxable assessed values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable assessed value that is within the City's boundaries and dividing it by each unit's total taxable assessed value.
