

KEEP LA PUENTE SALES TAX REVENUES LOCAL MEASURE

Argument in Support

VOTE YES to Keep La Puente Money Local

A **YES** vote on this measure helps **ensure** that **tax dollars** generated within La Puente **stay in La Puente** and are used for local priorities. The City of La Puente provides **critical services** that affect the daily lives of residents, including **public safety**, street maintenance, **animal control**, **parks and recreation**, **youth programs** and other essential community services.

Unlike the proposed countywide sales tax, which would send revenue to County programs, this measure ensures transparency and accountability, ensuring that funds generated in La Puente stay in La Puente and are used to meet community needs.

This measure would increase the City's existing transactions and use tax by one-half percent (0.5%). Measure LP **does not raise property taxes and does not tax income**. It applies only to taxable purchases. It does not apply to grocery store food or pharmacy purchases.

VOTING YES allows the City to invest in programs and infrastructure that matter most to residents while keeping control of local resources and out of County control.

Vote YES to support Measure LP and keep our tax dollars out of County control!
